1.5 yrs	1.5 yrs	1.5yrs	4yrs

PROJECTS

Git it Done

Retrieved data from a third-party server (GitHub) by using the Fetch API to make requests to server-side APIs.

Humm Playlist

Client-side work, storing and generating data entirely within the browser by using local storage.

Password Generator

Able to create a multifaceted Javascript application by creating variables that contained different data types in order to create a password, writing conditional statements to add criteria based on the user's selection, and writing for loops to create a password from the variables that were created.

Run Buddy

Able to create a dynamic multi-page website by using html and styling the website with CSS.
